A wide variety of aids, equipment and services are available, including services from agencies that assist with home modifications for people with special needs. This type of equipment is often referred to as “durable medical equipment” because it can be used repeatedly in the home to help provide a better quality of life.

Adaptive aids and equipment can be purchased or rented privately. The cost is usually covered under most medical insurance programs when prescribed by a medical professional. Check with your insurance provider for details. A limited amount of adaptive equipment is available for loan from one of the “loan closets” or agencies listed in this Resource Guide.

Care is available during the day, for as many as five days a week. Most centers can provide transportation if needed.

For more information about adult day care, call the 24-Hour *Senior HELP LINE* at 602-264-4357.

# Alcohol & Substance Abuse

Alcohol and substance abuse are not problems exclusive to the young. The abuse of alcohol and medications present unique problems for older adults and adults with a physical or mental disability. Older adults often abuse or misuse these substances to try to alleviate loneliness or to cope with change.

Many older adults take numerous prescription and over-the-counter medications every day. The use of medications and alcohol can lead to problems that cannot be resolved without help from someone outside the immediate family. There are many resources that can assist in obtaining counseling, information or support.

---

El alcohol y el uso indebido de drogas no son problemas exclusivos de los jóvenes. El abuso de alcohol y medicamentos presentan problemas únicos a las personas de la tercera edad y adultos con discapacidad física o mental. Las personas de la tercera edad a menudo abusan o dan mal uso a estas sustancias para tratar de aliviar la soledad o para afrontar el cambio.

Muchas personas mayores toman medicamentos con o sin receta todos los días. El uso de medicamentos y alcohol puede llevar a problemas que no pueden ser resueltos sin la ayuda de alguien ajeno a la familia inmediata. Hay muchos recursos que pueden ayudarle a obtener asesoramiento, información y apoyo.

# Domestic Violence

“Domestic violence does not respect age. Domestic violence in later life occurs when older individuals are physically, sexually or emotionally abused, exploited, or neglected by someone with whom they have an ongoing, trusting relationship. Abusers intentionally use coercive tactics, such as isolation, threats, intimidation, manipulation, and violence to gain and maintain control over the victim.” — *National Clearinghouse on Abuse in Later Life*

Abusers’ tactics are remarkably similar regardless of age. Abusers frequently look for someone they can dominate, those believed to be vulnerable and weak, unlikely or unable to retaliate. With respect specifically to abuse in later life, the aggressors may include a spouse or former spouse, partners, adult children, extended family, and in some cases caregivers.

---

“La violencia doméstica no respeta edades. La violencia en el hogar a las personas de edad avanzada se produce cuando las personas mayores son física, sexual o emocionalmente maltratados, explotados, abandonados o descuidados por alguien con quien ellos tienen una relación continua. Los abusadores utilizan intencionalmente tácticas coercitivas, como el aislamiento, las amenazas, la intimidación, la manipulación y la violencia para obtener y mantener el control sobre la víctima.” — *Centro Nacional de Información Documental sobre el Abuso a Personas de Edad Avanzada*.

No importa que edad tenga la víctima, las tácticas son notablemente similares. Con frecuencia los abusadores buscan a alguien que puedan dominar, personas que consideran débiles o personas que no pueden tomar represalias. En lo que se refiere concretamente a los abusos en la edad avanzada, los agresores incluyen cónyuges y excónyuges, parejas, hijos adultos, familia extendida y en algunos casos las personas que los cuidan.

# Fiduciary Services

When managing personal finances becomes a burden, a professional fiduciary can be privately retained or appointed by the court to manage personal assets, and by Social Security Administration to manage Social Security and Social Security Income benefits. The fiduciary is responsible to manage a person's income and assets for benefit of that person. It is important that a privately retained fiduciary is certified by the Arizona Supreme Court.

E  
F

Cuando el manejo de las finanzas personales se convierte en una carga, un fiduciario profesional puede ser retenido o nombrado por la corte para administrar los bienes personales, y por la Administración de Seguridad Social para administrar los beneficios del Seguro Social y SSI. El fiduciario es responsable de administrar los ingresos y bienes de una persona para el beneficio de esa persona. Es importante que un fiduciario contratado privadamente esté certificado por la Corte Suprema de Arizona.

# Home Modification

Home modification is the conversion or adaptation of the living environment to make tasks easier, reduce accidents and support aging at home. Examples include installing ramps, hand-held showers, grab bars, better lighting, roll-in showers, and stair or chair lifts. Home modifications overlap considerably with adaptive aids, which tend to be more mobile in nature and not attached to the structure of the house (see page 7 for adaptive aids).

---

La modificación del hogar se refiere a la conversión o adaptación de las condiciones de la vivienda para facilitar la realización de las tareas, reducir accidentes y apoyar la vida independiente. Algunos ejemplos son: instalar rampas, duchas de mano, barras de apoyo, mejorar la iluminación, regaderas sobre ruedas, escaleras o telesillas. Las modificaciones al hogar se trasladan considerablemente con los aparatos adaptables, que tienden ser más móviles y no están sujetas a la estructura de la casa. (Vea la página 7 aparatos adaptables).

# Home Repair & Weatherization

Living in your home means keeping up with maintenance and repair. Minor maintenance problems can become major challenges for older adults and younger adults with a disability.

The home repair programs listed here are designed to help people maintain their homes, but differ in the types of repairs performed, eligibility and whether the repairs are performed by volunteers or paid workers.

---

Vivir de forma independiente en su propia casa también significa mantenerse al corriente con el mantenimiento y reparaciones de su hogar. Lamentablemente, los problemas menores de mantenimiento pueden convertirse en grandes desafíos para los adultos mayores y personas con discapacidad.

G  
H

Los programas de reparaciones al hogar enumerados a continuación están diseñados para ayudar a las personas a mantener sus hogares, pero difieren en cuanto a los tipos de reparaciones realizadas, elegibilidad para reparaciones y si las reparaciones son realizadas por voluntarios o trabajadores pagados.

# Hospice Services

Hospice services provide counseling and overall support to terminally ill persons and their families. Hospice services stress maintaining the individual's quality of life and personal comfort. Hospice services may include nursing, home health, homemaking, crisis care, bereavement counseling, pastoral services, and social services. These services are available in individuals' homes, in special units at hospitals, and in many nursing care facilities.

Funding for hospice care is often covered under Medicare or other health insurance.

---

Los servicios de cuidado en los hospicios proporcionan asesoría y apoyo en general a las personas con enfermedades terminales y a sus familias. Los servicios de los hospicios paliativos se enfocan en mantener la calidad de vida y la comodidad de la persona. Dichos servicios pueden incluir servicios de enfermería y cuidados de la salud en el hogar, limpieza del hogar, asistencia en momentos de crisis, servicio de consejería por la perdida de un ser querido, servicios pastorales y servicios sociales. Los servicios de cuidados paliativos están disponibles en viviendas particulares y en las unidades especiales de los hospitales y en muchas instalaciones de cuidados de enfermería.

El financiamiento de los hospicios a menudo es cubierto por Medicare u otro seguro de salud.

# Housing

**Rental Assistance:** There are services that assist older adults and adults with a physical disability in locating affordable and appropriate places to live.

**HUD Housing:** Independent housing is available to older adults and adults with a physical disability through programs offered by the U.S. Department of Housing and Urban Development (HUD).

Each HUD program has eligibility criteria that may include income, asset and age qualifications. Under these programs, those who qualify for HUD housing must pay approximately 30 percent of their monthly income for rent. HUD then pays the remainder of the rent.

To receive HUD assistance, an individual must live in a designated HUD apartment, or can receive a HUD voucher that is used to pay rent for any apartment that meets basic HUD requirements.

G  
H

---

**Asistencia de Renta:** Hay servicios que ayudan a las personas mayores y a las personas con discapacidad física a buscar viviendas adecuadas y de bajo costo.

**Vivienda de HUD:** Hay viviendas independientes disponibles para las personas de edad avanzada y adultos con discapacidad física a través de programas ofrecidos por el Departamento de Vivienda y Desarrollo Urbano (HUD por sus siglas en inglés).

Cada programa de HUD tiene criterios de elegibilidad que pueden incluir ingresos, bienes y calificaciones de edad. De estos programas, los que reúnen los requisitos para HUD deben pagar aproximadamente el 30 por ciento de sus ingresos mensuales para la renta. HUD paga el resto de la renta.

Hay dos maneras de recibir asistencia de HUD. Una persona puede vivir en un apartamento designado de HUD o puede recibir un boleto de HUD que se usa para pagar la renta de un apartamento que cumpla con los requisitos de HUD.

# Long-Term Care

**Long-Term Care** is a range of services and supports to meet an individual's health and personal care needs. These services help people when they need assistance to perform daily activities. Most long-term care is not only medical care, but assistance with personal care and tasks of everyday life.

Long term care may be provided over a short or long period of time. The need for long term care may arise after a sudden change in health, due to an ongoing health condition or disability that gets worse, or as people simply get older and gradually need more assistance.

Depending on a person's needs and preferences, long-term care is provided in different places by different caregivers. Long-term care is often provided at home by family members, friends or through home care agencies. It also includes community services such as meals, adult day care, and transportation. Long-term care can also be given in a facility such as a nursing home or assisted living.

---

**El Cuidado a Largo Plazo** es una gama de servicios y apoyos para satisfacer las necesidades de atención personal de un individuo. La mayoría de la atención a largo plazo no es atención médica, sino más bien asistencia con tareas personales básicas de la vida cotidiana, a veces llamadas actividades de la vida diaria, como bañarse, vestirse, usar el baño, trasladarse y atención de incontinencia. Otros servicios y apoyos comunes para el cuidado a largo plazo son la asistencia con las tareas cotidianas, a veces llamadas actividades instrumentales de la vida diaria, como tareas domésticas, toma de medicamentos, preparación de comidas y compras.

El cuidado a largo plazo puede ser brindado en el hogar por un cuidador pagado, un miembro de la familia o mediante el Sistema de Atención a Largo Plazo de Arizona (ALTCS). También se puede proporcionar en asilos de ancianos, hogares y centros de vida asistida, y comunidades de jubilación continua.

# Respite Care

The term “respite” refers to short-term break designed to relieve unpaid caregivers from the continuous responsibility of caring for an older adult or person with a disability. The break in caregiving helps caregivers maintain some normality in their own lives and reduces the stress that comes with caring for someone on an around-the-clock basis.

In addition to programs that specialize in respite care, Adult Day Health Care programs also offer respite care. Some long-term care facilities and home health agencies offer short-term respite care.

---

El término “relevo” se refiere a la ayuda a corto plazo para relevar a los familiares o amistades que cuidan continuamente a una persona mayor que padece de alguna enfermedad o está discapacitado. Esto ayuda a los cuidadores a mantener cierta normalidad en sus vidas y reduce el estrés de atender a alguien todo el día.

Además de los programas que se especializan en cuidado de relevo, los programas de Cuidado Diurno de la Salud para Adultos también ofrecen cuidado de relevo. Algunos centros de cuidado de largo plazo y agencias de salud en el hogar ofrecen atención de corto plazo.
